

Flushing Schedule

Dates are tentatively scheduled and can be used as a guideline.

Due to the complex nature of the distribution system and the unpredictable circumstances that can arise during the flushing process, date(s) and specific areas may change if any unanticipated problems arise.

Call the office if you experience any extended periods with low pressure or dirty water. Try to refrain from using your water when the lines are being flushed in your neighborhood. MCMA crews are working around the clock to contain any problems.
